The cartoon is set within a rectangular frame. On the left, a scientist with a mustache and glasses works at a lab bench. A red speech bubble above him says: "Finasteride inhibits reductase activity in the central nervous system as well as peripheral." Below him, a red speech bubble says: "Unfortunately, this is incorrect. It should be 'Finasteride inhibits reductase activity in the central as well as peripheral nervous system.'" In the center, a professor with a white beard and a white lab coat over a dark suit holds a pointer. On the right, a man with glasses and a mustache sits on the floor reading a book, with a stack of books next to him. A red speech bubble above him says: "This technique is called 'Parallelism.' You can check out some resources on this topic on Enago Academy." Below him, another red speech bubble says: "This is indeed interesting and truly beneficial. I will register right away to improve my writing skills." At the bottom of the frame, a red banner reads: "Download our mobile app for instant access to 1,000 resources on academic writing and scholarly publishing". Below the banner are four social media icons: Twitter (@Enago), Facebook (enagoacademy), a red logo (enago.com/academy), and a smartphone icon (enago.com/app).

Finasteride inhibits reductase activity in the central nervous system as well as peripheral.

Unfortunately, this is incorrect. It should be "Finasteride inhibits reductase activity in the central as well as peripheral nervous system."

This technique is called "Parallelism." You can check out some resources on this topic on Enago Academy.

This is indeed interesting and truly beneficial. I will register right away to improve my writing skills.

The cartoon depicts two characters in a laboratory setting. On the left, a scientist with a mustache and goggles is working at a table with various glassware. A speech bubble next to him reads: "Finasteride inhibits reductase activity in the central nervous system as well as peripheral." On the right, a professor with a large nose and glasses is sitting on the floor reading a book, with a stack of books beside him. A speech bubble next to him reads: "This technique is called 'Parallelism.' You can check out some resources on this topic on Enago Academy." Below the scientist, a speech bubble reads: "Unfortunately, this is incorrect. It should be 'Finasteride inhibits reductase activity in the central as well as peripheral nervous system.'" Below the professor, a speech bubble reads: "This is indeed interesting and truly beneficial. I will register right away to improve my writing skills." At the bottom of the cartoon, a red banner says: "Download our mobile app for instant access to 1,000 resources on academic writing and scholarly publishing". Below the banner are four social media links: a Twitter icon with "@Enago", a Facebook icon with "enagoacademy", the Enago logo with "enago.com/academy", and a smartphone icon with "enago.com/app".

Finasteride inhibits reductase activity in the central nervous system as well as peripheral.
