Hi everyone.

i searched in internet and all i found was that we have to search the name of journal in “<https://mjl.clarivate.com/>” and if it indexed as : SCIE or SSCI or ESCI then the journal is indexed as ISI journal.

but i wanted to submit my paper in “<https://academic.oup.com/painmedicine>” and I searched it in Clarivate and it said that it is indexed as SCIE . but when I emailed to the editor of pain medicine journal he said that their journal is not rated or indexed as ISI. Now I am very confused that which journal is ISI?
